

Position Overview

Are you passionate about the built environment and reducing energy and carbon emissions in buildings? Do you enjoy tackling new challenges and solving problems? Are you detail oriented and thrive for technical excellence? Red Car Analytics is seeking an experienced mechanical engineer to join our growing team working on commissioning, energy analysis, and building efficiency research projects.

We are seeking qualified individuals who enjoy field work, data analysis, learning about building HVAC technologies, and working with client teams to deliver high-efficiency buildings and develop building energy policy for California and the U.S.

Minimum Qualifications

1. Mechanical engineering or architecture degree, or equivalent education/industry experience.
2. Minimum of five years of relevant post-academic industry work experience performing commissioning, retro-commissioning, energy analysis/modeling, HVAC design, and/or energy efficiency consulting.
3. Demonstrated success in leading projects and engaging with internal and external team members.
4. Primarily located in the Greater Bay Area.

Why Join Red Car Analytics?

Red Car Analytics is a small but impactful company. To-date, we've worked on over 28 all-electric ZNE and 26 LEED Platinum buildings. You will get to work on diverse building types, vintages, and system types, all presenting unique opportunities to provide low energy solutions. At Red Car Analytics, you will have the opportunity to work with great projects and great clients. Many of our clients are repeat clients and we pride ourselves on developing strong ongoing relationships of mutual trust and collaboration. You'll be client-facing and have the ability to influence project direction.

We provide a flexible, remote work environment, offering you the ability to pursue your passions inside and outside of work.

Benefits

Red Car Analytics offers competitive benefits including health, dental, and vision insurance, 401k retirement plan, profit-sharing, and additional benefits such as an educational stipend and monthly wellness benefit.

How to Apply

Send us an email with resume and cover letter to careers@redcaranalytics.com. We would love to hear from you!
